

Family Practitioners & Internal Medicine

# New Revenues and Better Patient Care

Deliver on-the-spot Holters and, in most cases, same day test results for your patients.

With easy to interpret reports, in-clinic Holter services let you improve clinical pathways for patients and grow your practice at the same time.

No set up costs

Added revenue for service provision

24hr report turnaround, 2hrs urgent

Only refer patients needing treatment

Latest wearable 1-14 day Holter

Increased reimbursements on Holters

## Increase Revenue with New Extended Wear Holter (EWH) Reimbursements

From 1 Jan 2021, Holters are now reimbursed by study length, divided into blocks: up to 48hrs, 48hrs - 7 days, 7 days - 15 days.

Your clinic simply bills for the Hook-Up/ Recording component of the test and the Interpretation of the results - while we bill for the scanning and provision of reports.

More about our services

# Leading Holter technology

myPatch provides superior multiday 3-channel recording for up to 14 days. The lightweight, showerproof device allows patients to continue with daily activities without limits – while the reusable recorder and single use electrodes provide cost effective monitoring.

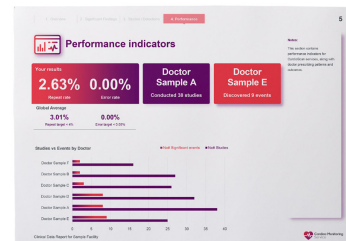

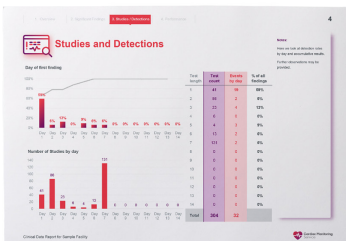

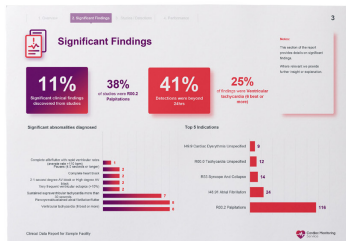

## myPatch features

- 2-3 channels
- 1-14 day continuous recording
- Showerproof
- 3-sizes (Adult, Pediatric, Neonate)

## Clinic Data Reports

Eligible customers now receive regular Clinic Data Reports to assess the efficacy of multiday analysis and a broad range of significant clinical findings, to improve clinical pathways and patient care. Data includes:

- Detection rates by day
- Study length vs day of significant findings
- Patient demographics
- Indications
- Most common findings
- Performance KPIs & more

## Individualized Clinic Care Plan

Our Clinic Care Plans include all the ways we work with you from the time of sign up, through training and ongoing care and support activities including:

- Service calls & updates
- Clinical response times
- Issues management
- Clinic resources; and
- Key contact incl. direct phone lines

## Latest Devices

As a complete cardiac monitoring service, we now provide a range of leading devices including:

- Multiday 2-3 channel myPatch Holter
- All-in-one single device Clarus 40M Telemetry & Events monitor
- 24hr Mobil-O-Graph Ambulatory Blood Pressure device
